

CITY OF ST. AUGUSTINE

MEMORANDUM

TO: Old City South Neighborhood Association

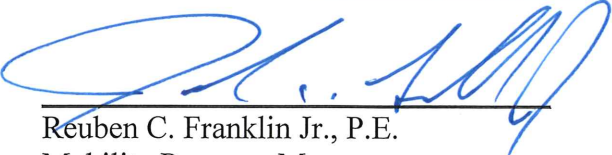

DATE: July 31, 2017

RE: Mobility Walk Follow Up & Implementation Schedule

On April 2, 2017 representatives of Old City South Neighborhood Association met with Reuben Franklin, Mobility Program Manager to walk the neighborhood and discuss mobility issues, roadway work requests and improvements specific to their neighborhood. The meeting lasted from 2:00pm to 4:00pm. At the meeting a list was submitted itemizing the work needed as identified by the residents in the neighborhood. The intent of this memo is to summarize the results of the meeting, provide a response including implementation schedule for the mobility items to be executed in the short and long term. Short term items are those that can be completed within ninety (90) days while long term items will extend beyond ninety (90) days. Please note that long term items may need to be analyzed further and possibly incorporated into the City's Capital Improvements Program (CIP).

One long term item is the issue of residential parking. A draft ordinance is currently being worked on which will establish criteria for residential parking permits. Prior to bringing the ordinance to the City Commission for first reading a public workshop will be held to inform the public on how residential parking permits will be administered. City staff will also take input from the public at the workshop. A notice of the public workshop will be sent to the association. The goal is to pass the ordinance and begin working with the neighborhoods to establish the parking zones within one (1) year.

Finally, attached are two (2) exhibits: **Exhibit A** is a list of all the items the neighborhood identified to be addressed along with the City's response and **Exhibit B** is an implementation schedule. The City looks forward to working with the association to improve the neighborhood and on city-wide mobility issues. If you have any questions or concerns please feel free to contact me at rfranklin@citystaug.com or 904-209-4279.
